

1 APRIL 2018 - 1 APRIL 2019 EASTERN TIME ZONE

WELCOME to the weird world of the Void of Course Moon. I hope you'll enjoy experimenting with it. It's a pleasure to share this ancient teaching with you. You are welcome to view and download the Void Moons 24 hours a day, 7 days a week at our website: rachelstuarthaas.com.

WHAT IS THE VOID OF COURSE MOON?

Lets let the brilliant Debbie Kempton-Smith explain: "From Al H. Morrison, the genius astrologer who traced the knowhow of Void Moons from the ancient times of Firmus Maternicus through Elizabethan times to the present, comes this explanation: 'Every couple of days there comes a time which is best used for subjective, spiritual non-material concerns, like prayer, yoga, play, psychotherapy, or passive experience, sleep or meditation. This period may last a few seconds,

or it may be three days and nights in a single session. It begins when the Moon in transit makes the last major aspect it will make before it changes from one sign of the zodiac to the next. It ends when the Moon enters the next sign. The name of this period is Void of Course Moon. You may call it a silly season, or vacation from normal living. Decision making in such periods turns out later to be unrealistic. Creativity diverges into unpleasant directions, improvisations, false starts, error. Business moves fail to generate profits, or meet unexpected difficulties. If you buy any object it usually fails of its intended use. Human judgment is more fallible than usual during the time the Moon is Void of Course. Go out of business when the Moon makes its last aspect. Feed your soul until the time the Moon enters the next sign. Then, go back into business!"

HOW TO USE THESE TABLES

Column 1 tells when the Void of Course Moon begins (entered the tunnel).

Column 2 tells when the Void of Course Moon ends (leaving the tunnel). At that same moment the Moon enters the next sign of the Zodiac.

If you see no listing, the Moon will not be Void of Course on that date. Only the times when the Moon is Void of Course are listed here!
